

**FLORIDA DIVISION  
SOCIETY OF AMERICAN FORESTERS**

Nomination for Wood Utilization Award

The Wood Utilization Award is presented to an individual, institution or company who has developed or perfected a unique use of wood or wood derivative.

Emphasis will be given to a process or technique that utilizes a heretofore wasted wood resource. The recipient, if an individual need not be a professional forester since wood is utilized in a multitude of disciplines from saw milling to chemistry. This improved utilization of wood or wood derivative should have made a significant contribution toward improving our standard of living.

The recipient should be Florida based. The process need not have been developed solely within the award year; however, it should have been developed within the recent past.

(Please submit nomination to the Awards Chairperson by **February 28<sup>th</sup>**)
